EDUCATION

Telkom University Surabaya — Surabaya, Indonesia
Bachelor's Degree in Computer Engineering, Faculty of Electrical Engineering — *First-year student*

SMAN 2 Tabanan — Tabanan, Bali, Indonesia
Senior High School

PROJECTS

2D Game — *C# | In development*
- Developing a 2D game with C# as my current main learning project.

Simple Macro App — *Python*
- Built a simple macro-style application with Python.

Shopping List App — *Python*
- Developed a shopping list application.

Minecraft-Inspired Project — *Python*
- Built a basic project inspired by Minecraft (not a full recreation of the game).

Google Data Analysis and Organization — *Python*
- Analyzed and organized Google-related data.

3D Game — *C#*
- Developed a 3D game project.

Roblox Game — *Roblox*
- Developed a game project for Roblox.

Arduino IoT Lighting Project — *Arduino*
- Built a simple Arduino-based IoT lighting circuit.

TECHNICAL SKILLS

Programming languages: Python, Java, C++, C#, Luau
Web styling: CSS
Hardware / IoT: Arduino
Current learning focus: C#, and C++ applied to IoT

INTERESTS

Hardware and software; how components and systems work together; critical thinking and strategic planning; exploring new topics and experimenting with projects.
